Comprehensive Data Governance with SAP Datasphere and Collibra

Anouk Gorris (*she/her*) and Gaëtan Saulnier (*he/him*)
November 2, 2023

Overview

SAP Datasphere is the foundation for a business data fabric architecture

Delivering comprehensive data governance across the business data fabric

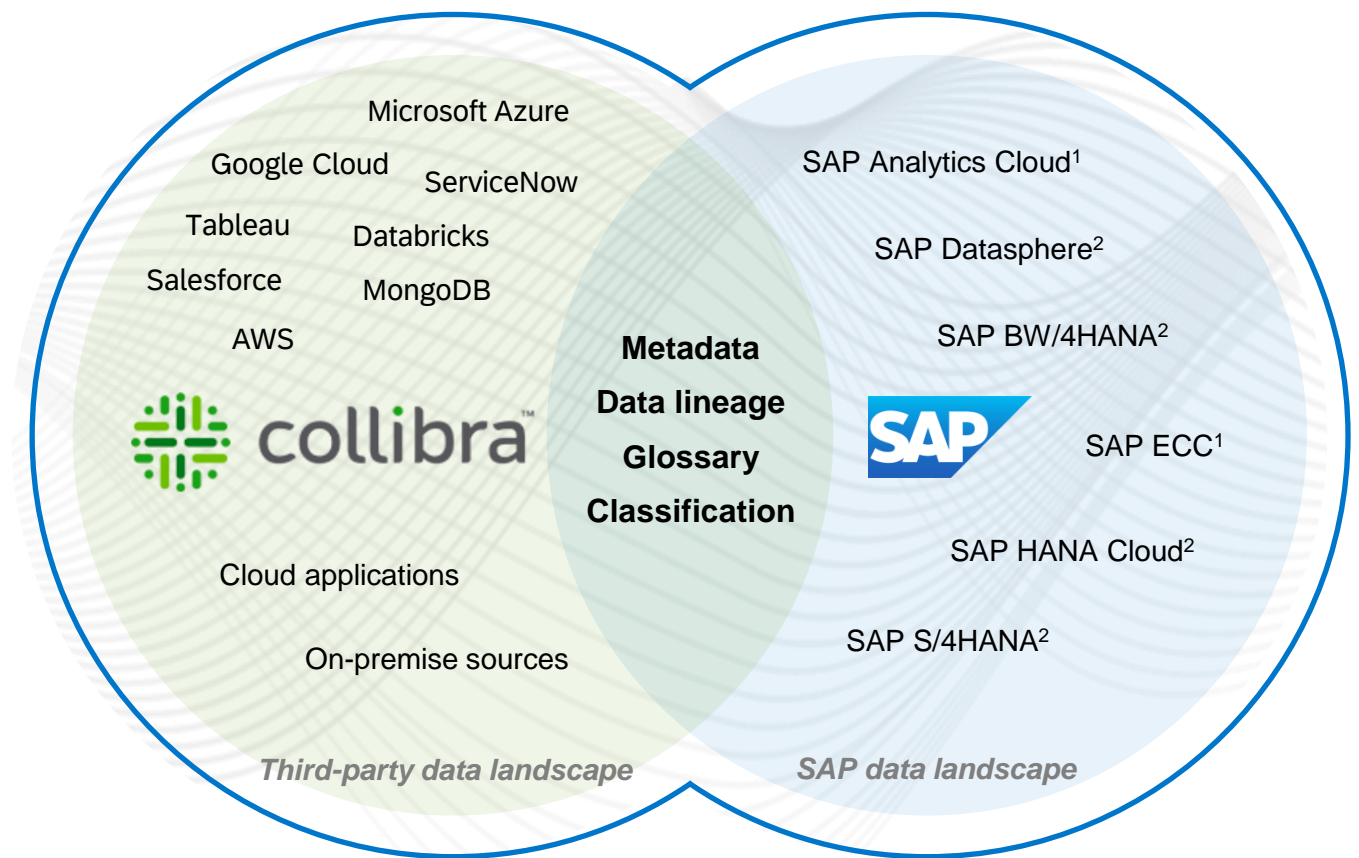

Collibra delivers a best-of-breed data intelligence cloud platform that tightly integrates data catalog, governance, lineage, quality, and privacy capabilities.

The **SAP Datasphere** solution retains the full business perspective of SAP data, up-to-date and authoritative, enabling collaborative insights and planning across the enterprise.

Comprehensive data governance with SAP and Collibra

The **Collibra** + **SAP Datasphere** integration will deliver a complete data catalog with data lineage to customers – across SAP and third-party systems.

Achieve comprehensive data governance

COMPLETE DATA CATALOG

Deliver a trusted data catalog that provides the full view of your business

- Establish a **single business glossary** across entire data landscape – both SAP and third-party data
- **View and understand lineage** of application and analytical data from one interface
- Build a **foundation for metadata management** that can adapt as data volume and types grow

COMPLIANCE RISK ASSESSMENT

Automatically identify sensitive data and apply the recommended action

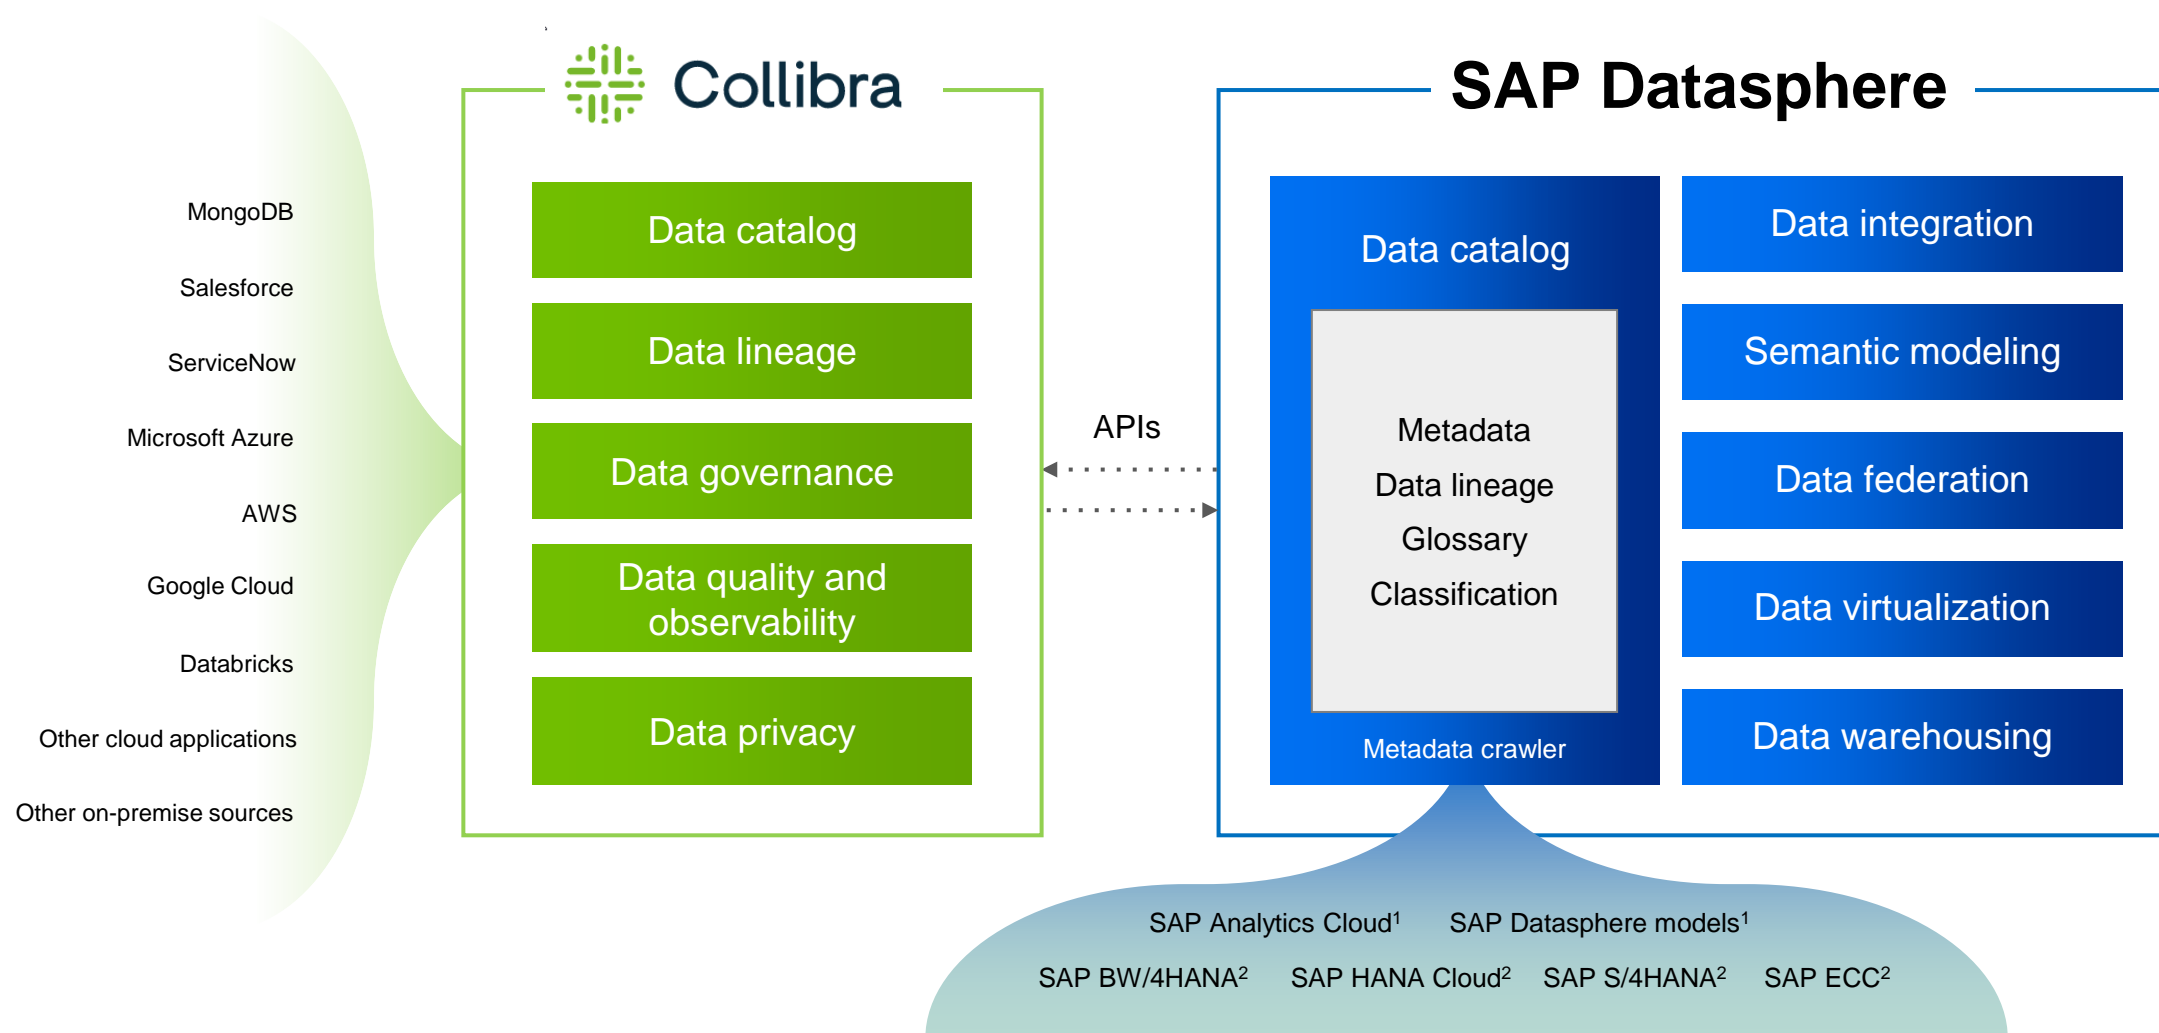

- Understand how critical regulations **affect existing and incoming data**
- **Automatically tag** sensitive data and see how it moves throughout organization
- **Mitigate risks** by associating policies to safeguard sensitive data

PRIVACY POLICY ENFORCEMENT

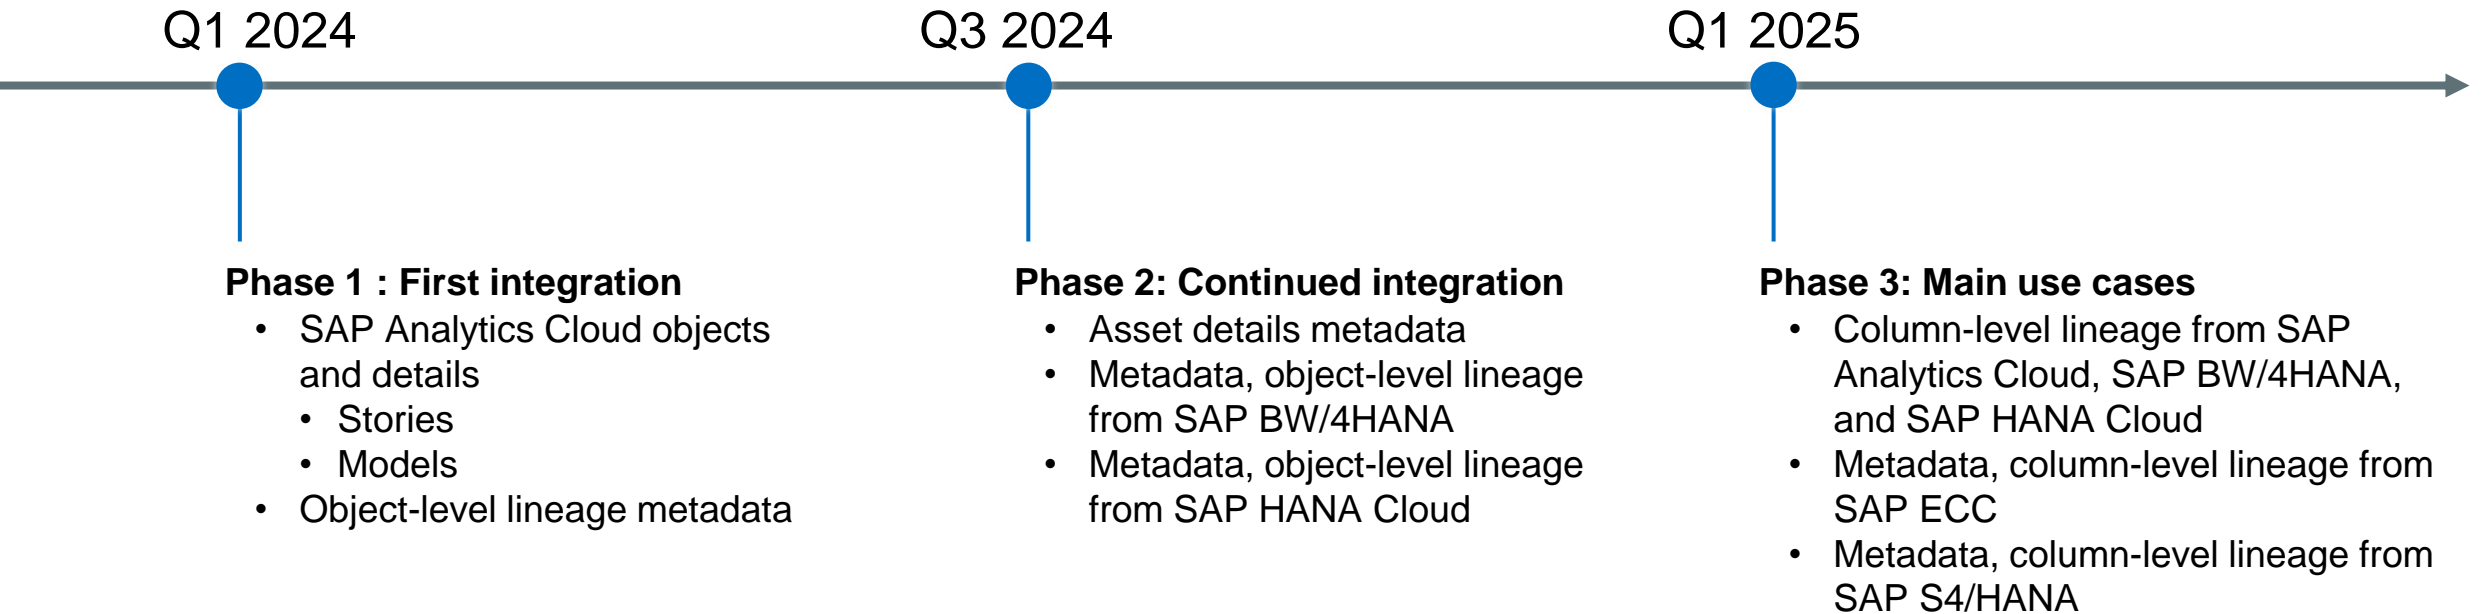

Build automated privacy policies that persist across both SAP and third-party data

- Create **scalable policies** that classify and protect sensitive data
- **Simplify access control** management with policies that apply across systems
- **Save time** by not having to build and maintain policies and access rules manually in each system

SAP and Collibra integration

Collibra integration general availability plan
